Retrun from Associated

As you all are aware, the company had invested in a 200 MW capacity HSD Power Plant at Baghabari, Sirajgonj Bangladesh under the Private Sector Power Generation Policy of Bangladesh on Build, Own and Operate (BOO) basis jointly with Bangla Trac Ltd where Paramount Textile PLC.'s investment is around 49% of total equity. During the financial year the company's Financial Statements showed a profit of BDT 450.27 million from the Associates Company's investment.

Sustainable Growth

Sustainable growth is among the biggest challenges any business face, but it not a new phenomenon. Paramount Textile incorporates new technologies and ideas to sustain in an envolving business environment. By adapting to the changes, it enhances the safety and quality of the products and thus delivers the best products to the customers. This is what makes Paramont Textile a reputed entity in the textile industry.

Return of the Shareholders

The Board of Directors of Paramount Textile PLC. believes in maintaining a stable dividend policy. In light of the business performance the Board of Directors proposed 10.00% cash dividend i.e. TK 1.00 per ordinary share of Tk. 10.00 each.

Reason Behind the Success

The major reason behind Paramount Textile PLC. remarkable success over the years has undoubtedly been its passionate and dedicated employees. We have more than 5816 employees, all of whom together make us the most preferred employer in the country. We have always focused on growth for our employees both in terms of their rewards extending and honoring skills for their performance. We take care of our people by

actively listening to their issues, respecting our employees, and by treating them fairly. We are emphasizing on developing more and more homegrown people in the coming days. We instill in them a culture of high ethical standards and empower them to lead the company in future.

Focus and Strategy

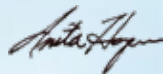

Focus on 2023 has been one of the successful years for Paramount Textile PLC. We strongly believe that without setting a specific goal, it is not possible to attain success in business or in any other fields. Setting a specific and actionable goal is the number one tool to success. Based on this ideology our management had set some objectives at the beginning of the year. (a) to ensure the good health and safety of our all employees, (b) to fulfill shareholders expectation by earning Revenue, (c) to Increase product quality by using world class technology, (c) to increase Customer's satisfaction by providing best quality products and services (d) to Increase our employee's satisfaction whom, we consider to be our most valuable asset & (e) to contribute for the welfare of the underprivileged people of our country and to ensure their livelihood, education, health and standard of living by our CSR initiatives.

It is my pleasure to let you know that our efficient and effective management as well as our trusted and skillful employees have achieved most of the goal. They have contributed their level best to achieve most of the goals which our management has set forth at the beginning of the year.

Appreciation

I am grateful for the support and insight of my fellow Board members, the dedication of the executive team and energetic staff, work force and security staff and their active support. I sincerely acknowledge the support of our shareholders, bankers, suppliers, customers, government bodies, local authorities and their confidence in our ability to execute our strategy for long-term value creation. I thank you all for attending today's Annual General Meeting of the Company.

With best wishes for all of us

(Anita Haque)

SHAKHAWAT HOSSAIN Managing Director
Paramount Textile PLC

Statement from the Managing Director

Dear Shareholders

Ladies and Gentlemen

Assalamu Alaikum Wa-Rahmatullah

It gives me great pleasure to welcome you to the 17th Annual General Meeting of Paramount Textile PLC. I am delighted to place before you the Annual Report 2022-23 along with the Audited financial Statements, the Auditors' Report and the director's report for the year ended 30th June, 2023

As you are aware that Bangladesh economy has been able to recover from the adverse effects of coronavirus pandemic. Before pandemic, the GDP growth was 7.88 percent in FY 2018-19 which fall to 3.45 percent in FY 2019-20. GDP growth has been rebounded and stood at 6.94 percent in FY 2020-21 and 7.10 percent in FY 2021-22. But, due to Russia-Ukraine crisis, the economic growth in FY 2022-23 has been hampered. According to the provisional estimates of Bangladesh Bureau of Statistics (BBS), the GDP growth stood at 6.03 percent in FY 2022-23. But at present the economy has been facing considerable challenges with global economic uncertainty, rising inflationary pressure, energy shortages, a balance-of-payments deficit, a revenue shortfall, Increase the dollar exchange rate, increase price of oil, Gas and transportation cost that directly affected to disrupt production of the company very badly. In the midst of this crisis your company achieved reasonable progress in 2023 despite Challenges in the textile industry. Considering the negative impacts, the financial indicators are commendable:

- Revenue increased by 43.05%, GP increased by 90.53%, Operating Profit increased by 118.80% and Net Profit after Tax increased by 61.00%
- EPS recorded BDT 7.51 per share, NOCFPS increased by 67.09% and NAV increased by 21.95% compare to last year.
- Shareholders' equity increased by 21.95% compare to last year.

Based on the performance of the company for the year ended 30th June, 2023, the Board of Directors recommended 10% Cash Dividend cash dividend i.e., TK 1.00 per ordinary share of Tk. 10.00 each.

Core Business Plan

Our main business plan is to diversify the business by adopting new technology, idea and innovations to satisfy our customers and fulfil the expectation of its shareholders. Having stated that, your company has taken the various initiatives such as, Significant investment in BMRE projects, enhancing existing production capacity, Investment in lucrative projects, diversified portfolio, training manpower how to cope up present challenge, Maintaining Sustainable growth, Cost minimization, Ensure Best Quality Products, ensure better customer service, more employment generation, Zero Tolerance against non-compliance and increase shareholders Value.

Investment in Green Energy Sector

The investment in power sector, especially in renewable energy will certainly help to reduce power crises as well as create employment opportunities in our country. Last year our company invested around a total of BDT 1,069,900,000 (One hundred six crore ninety-nine lac) in Non-Convertible Redeemable Preference Share of Dynamic Sun Energy Private Ltd. (DSEPL) of TK. 10 (Ten) each @ 9% coupon rate as yearly basis for 5 years tenure divided into 10,69,90,000 (Ten crore sixty nine lac ninty thousand).

However, to improve and sustain in the coming years, the management has taken some significant initiatives to enhancing production capacity, install updated machinery, arrange training program for employees how to cope up with continuous global changes.

Gratitude

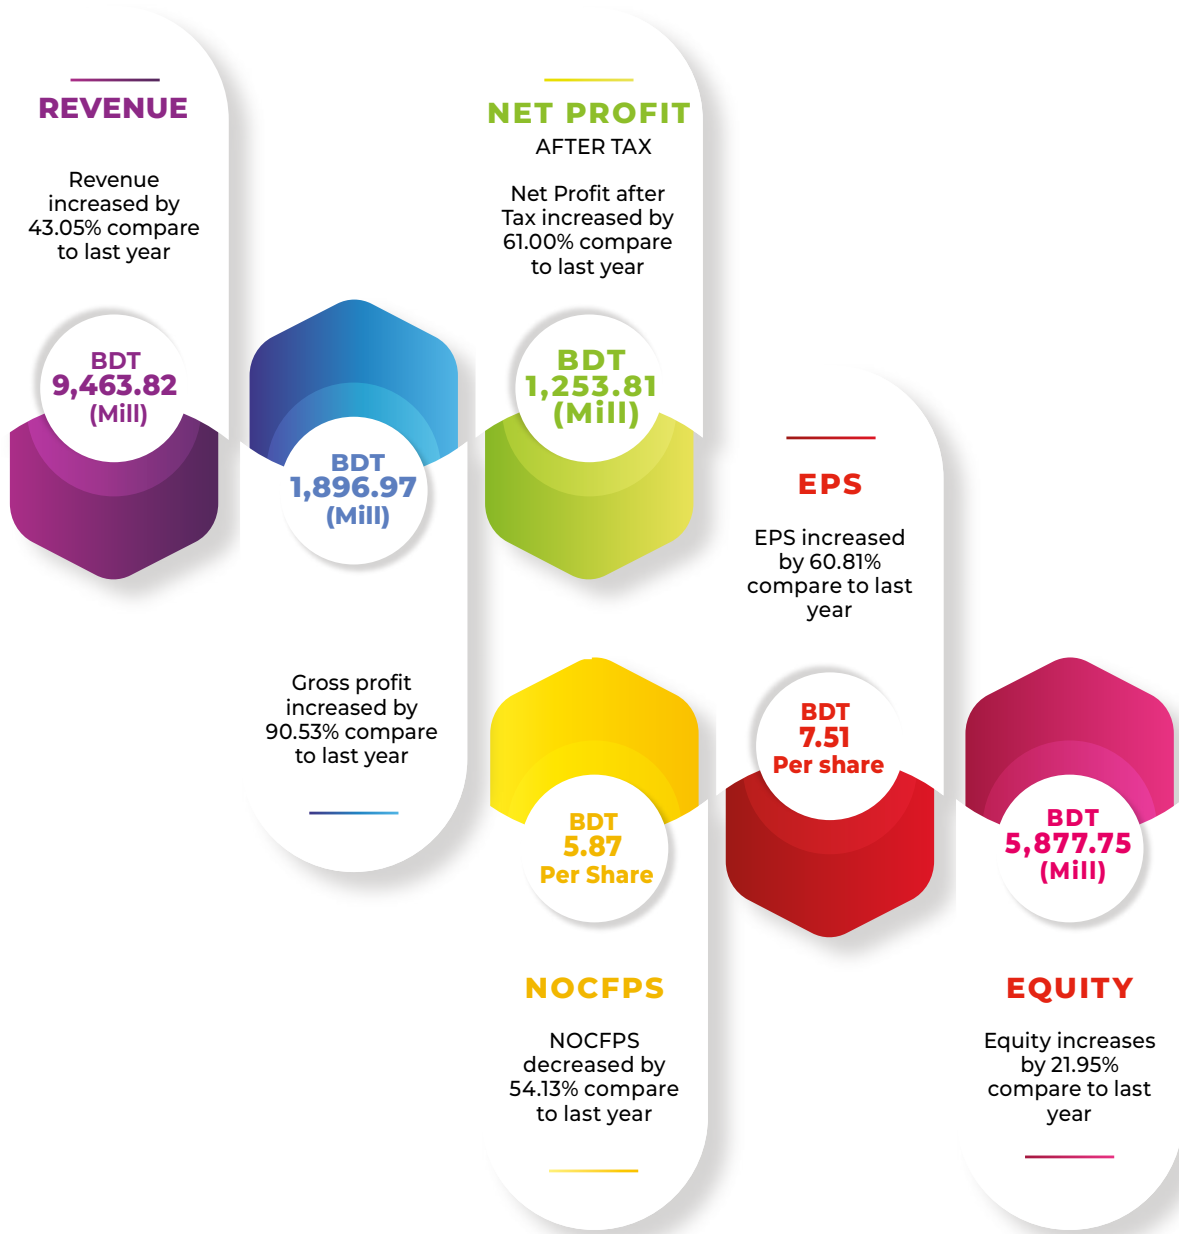

In conclusion, I would like to express my gratitude to the members of the Board of Directors for their support, guidance and advice while formulating business strategies and action plans. On behalf of the Board of Directors, I would like to again thank the management team and all our employees again for their tremendous efforts, dedication and resilience in maintaining our market leadership and delivering greater value to our stakeholders, despite this year being the most challenging year on till date. I would also like to express my gratitude to the Government and our regulators for their guidance and support. A special thanks also to our shareholders, customers, distributors, business partners and other stakeholders for their confidence and continued belief in Paramount Textile PLC.

With best wishes for all of us

(Shakhawat Hossain)

(E) FINANCIAL & ECONOMIC SCENARIO OF THE COUNTRY AND THE GLOBE:

Global Financial & Economy Scenario

The global economic growth in 2023 remains highly uncertain due to the impact of the COVID-19 pandemic over the past three years and the growing adverse effects of the ongoing Russia's war in Ukraine. In the World Economic Outlook (WEO) April 2023, International Monetary Fund (IMF) has expected the global economy to slow down from 3.4 percent in 2022 to 2.8 percent in 2023 and rebound to 3.0 percent in 2024. This projection is 0.1 percentage point lower than in the January 2023 WEO update. The slowdown of economic activity is observed due to spikes in commodity prices and supply chain disruption driven by the effects of war. Sluggish growth rates between advanced economies and emerging market and developing economies will be divergent. Growth in advanced economies is expected to decline from 2.7 percent in 2022 to 1.3 percent in 2023 and rebound 1.4 percent in 2024. In emerging market and developing economies, however, growth is expected to drop from 4.0 percent in 2022 to 3.9 percent in 2023 and rebound to 4.2 percent in 2024.

Country Financial & Economy Scenario

Bangladesh Economic growth is expected to accelerate withing short period of time as private consumption and investment gain steam. The details of the financial and economy scenario are discuss page on 104.

ETHOS & VALUES

BUSINESS ETHICS

Business ethics refers to contemporary organizational standards, principles, sets of values and norms that govern the actions and behavior of an individual in the business organization. Paramount Textile behave towards their stakeholder in the following manner:

Consumer Satisfaction

Building strong relationship with Stakeholders

Survival and growth of business

Healthy Competition

Health & Safety Working Environment.

Creating Goodwill

Stop Business Malpractices

Minimizing Natural & Environmental Damage

CODE OF CONDUCT

To ensure safe, efficient and harmonious operations and to fully inform all employees of their responsibilities, certain standards of conduct have been established for the guidance of all employees. The standards mentioned are only a partial list of acceptable behavior and conduct. Any violation of such acts or omissions will constitute misconduct and lead to disciplinary actions.

Purpose

The purpose of our Code is to set out the values and standards which guide the way we do business. Our business brings with it obligations to comply with the law, adhere to our own policies and principles, exercise good stewardship of our assets and the environment, and behave safely and ethically at all times.

The Code brings together a set of standards, helping to define what Paramount Textile expects of its businesses and people regardless of location or background. All employees must follow this Code. By doing so, they will ensure that their activities strengthen the business and support the Group's values. The Code:

- Summarizes the legal and ethical standards that affect us all
- Details standards that have a country wide application
- Outlines our obligations and the expectations of our all stakeholders
- Helps us identify key risk areas – and how those risks should be approached
- Gives guidance on how we should resolve difficult questions about business conduct

Stakeholders

Our guiding principles are broken down into four stakeholder groups. Our stakeholders are people with an abiding interest in Paramount Textile

- Customers, suppliers and markets – customers who are satisfied and feel understood; suppliers who appreciate us because we are demanding but fair
- Shareholders - who expect the best endeavors from our organization to maximize the value of their investment
- Employees - who work with enthusiasm and pride because they feel challenged and valued
- Communities – in which we play a practical and positive role, and that appreciate our involvement and contribution.

Key steps to maintaining our standards

- Know what is right
- Do what is right - always
- If you are unsure, ask
- Keep asking until you get an answer.

Our guiding principles

Paramount Textile is committed to following a set of core values – our guiding principles. These outline how we expect our people to treat our customers, suppliers and markets, our fellow employees, shareholders, and the communities in which we work and live. Our guiding principles set the tone and overarching objectives of the Code of Conduct. Our individual standards provide the details of what issues we face and how we are expected to respond to them.

Communities & Public

Responsibilities to local communities and the public:

Paramount Textile is committed to being a positive contributor to the communities in which we do business. We oppose public corruption, act as responsible stewards of our products and the environment, play a part in supporting activities in the places where Paramount Textile operates, and support the fundamental principles of good governance and human rights.

Paramount Textile participates in a number of program and initiatives in support of these principles. The first obligation of responsible citizenship is to obey the laws of the country and communities in which we do business. Also, as a good corporate citizen, we have a responsibility to behave as a conscientious neighbor. This includes:

- Adherence to safe work practices
- Sound environmental management
- Respect for the principles of human rights
- Measured and appropriate community engagement.

Responsibilities to customers, suppliers and markets:

In all our business dealings, Paramount Textile strives to be fair and honest. We will always act in line with all applicable laws and regulations. We will always compete vigorously but fairly, complying with all laws protecting competition and the integrity of markets,

Paramount Textile will not knowingly use suppliers who operate in violation of applicable laws and regulations, including local safety, environmental and employment laws. In particular, we will always:

- Compete vigorously but fairly and legally
- Respect the intellectual property and copyright of others
- Promote our products and services accurately and honestly
- Comply with international trade controls
- Strive to ensure our suppliers operate in line with our Code
- Meet government, industry, customers' compliance and Paramount Textile's safety and quality standards.

Responsibilities to shareholders:

Paramount Textile is committed to promoting the interests of our shareholders by working hard to achieve superior financial results. In pursuing this goal, we will protect Paramount Textile's assets and resources, avoid conflicts of interest and self-serving activities including insider trading, and we will be forthright in measuring and reporting our financial performance.

Our shareholders trust us to use our company assets responsibly – to make our businesses growth and ultimately increase the value of their investment. Honest and accurate recording and reporting of information is essential. All financial books, records, accounts and claims must accurately reflect transactions and events, and conform to both generally accepted accounting principles and Paramount Textile's system of internal controls. Undisclosed or unrecorded funds, assets, claims or liabilities are not allowed. Employees uncertain about the validity of an entry or process are expected to consult our business assurance and risk audit department. In particular, we will always:

- Avoid conflicts of interest that may interfere with our obligations to Paramount Textile
- Create and retain honest, accurate and timely records
- Protect the confidentiality of Paramount Textile 's proprietary information and information systems
- Respect company time, property and funds

Responsibilities to and expectations of employees:

Paramount Textile is committed to fostering a workplace that is safe and that is founded on fair employment practices and mutual respect. We believe in fair treatment and compensation of employees, recognizing and rewarding good performance, and offering opportunities for advancement through promotions and training. In return, we expect employees to adhere to our Code and to take personal responsibility for the upkeep of our standards and good corporate citizenship. In particular, we will always strive for a work environment that:

- Values the safety, health and security of our co-workers
- Values and embraces diversity and equal opportunities
- Prohibits all forms of harassment
- Prohibits the abuse of drugs and alcohol
- Ensures respect for the confidentiality of our employees' personal information
- Encourages caution, moderation and good judgment in the giving and receiving of gifts, favors and entertainment.

WINNING WITH BRANDS AND INNOVATION

Customer habits are changing. They are taking newer paths for purchasing and increasingly seeking brands that are purpose-driven and which they can trust. Our brands is a key differentiator in this regard. We are consistently trying to build brand image to fulfill this purpose.

We are constantly innovating across our portfolio to address the unmet needs of our customers. We are focused on strengthening the core, entering into new segments and speeding up innovation cycles.

We are evolving the ways in which we reach our customers with rapid changing preferences. We are thriving to develop new markets for our brands.

To capitalize on the growing trend of “safe fabrics” we have been building a strong portfolio of products. We are constantly evaluating and innovating portfolio to win in the future.

WINNING IN THE MARKETPLACE

To win the marketplace, we have a robust customer development agenda all over the world. We work with customers to understand their demand, focus on fulfilling their demand and tirelessly create new demand through market diversification. This is driven by the “Winning in many ideas” strategy that allows us to get closer to customers by providing tailor made products across categories and geographies.

As far as demand capture is concerned, our focus has been on driving quality of coverage and increasing the product mixture. With respect to demand fulfillment, process and technology interventions have been used for improving service and efficiencies. For demand-generation, our strategy encompasses winning in traditional trade as well as winning in emerging channels like e-commerce.

WINNING THROUGH CONTINUOUS IMPROVEMENT

We are constantly aligning our products, processes and strategies to the changing market conditions to stay ahead of competition. We focus on business competitiveness through customer centricity, a robust saving program and product excellence to ensure availability of our products.

We continue to improve on-shelf customer relevant quality standards, thereby enhancing overall customer's experience. "Delighting customer's is central to how we drive quality in our products.

Through sharper financial discipline governing overhead spending, and our zero based budgeting approach, we are reducing cost as well as uncovering new and innovative ways of working. We have a product wise savings program, driven through cross functional teams of brand building, R&D, supply chain and Finance.

Our production capacity level has increased rapidly. We are focusing on improving the capability of our employees in both factory and head office to insert his/her inner talent for the betterment of the company.

WINNING WITH PEOPLE

Our people are our biggest strength. They are driven by purpose and are fully empowered to excel in our fast-changing market. We continuously strive to develop the right capabilities and skills needed for different ways of working and new entrepreneurial leadership qualities.

To strengthen the people's agenda through various initiative, we are creating a more flexible and agile mindset in the organization. It involves more collaboration, experimentation through test-and-learn, embracing failure to gain insight and an obsession with customers. An owner's mindset empowers our people to take responsibility for delivering business results. They are empowered and provided with the resources to develop innovations with speed.

Our success depends largely on our ability to attract and retain the most talented individuals. We motivate and inspire them with a mission and a purpose that resonates with the long-term aims and values of the company.

Our people agenda focuses on creating a balanced and inclusive workforce. This focus not only underpins the company's longstanding values. Especially tolerance and respect, but also guarantees the diversity of thought and ideas on which our business depends.

WINNING WITH ENVIRONMENT FRIENDLY OPERATION & SUSTAINABLE DEVELOPMENT

Our vision has emerged to become one of the leading and most trusted yarn & solid dyed fabric manufacturer attaining sustainable development in business. We focus on environmentally friendly state-of-art machineries and promote safe working conditions for our colleagues. We continuously try to minimize production hazards for our employees through ensure compliance in all aspects and we are always looking to create equal employment opportunities. Our aim is to provide sustainable growth opportunities to everyone.

We are also a very strong advocate of an Eco-friendly and Green environment for ensuring sustainable development and have undertaken multifarious steps like Energy cogeneration in our Factory. To further reduce the carbon footprint, we have a planned afforestation program whereby trees are being planted regularly all over our factory premises.

We strongly adheres to the concept of an ecologically friendly environment and has hence implemented various measures to lower Carbon Dioxide emissions. The heat generated by our capture power plant is recycled and reused as cogeneration energy to operate the Chiller which would have needed about 1000 KW of conventional Electrical Power. This cogenerated Energy is also being used to run a Boiler which have otherwise consumed about 3000 cft of Natural gas. We have Biological ETP (Effluent Treatment Plant) and WTP (Water Treatment Plant) which presents the discharge of waste eater to the surrounding water bodies. The plant also has a Rain harvesting project which provides natural water to our in-house reservoir.

PESTLE Analysis

Businessmen and entrepreneurs often turn towards business analysis tools for aiding them in making suitable decisions for their firm. Before any business venture, the business owners often remain doubtful regarding its outcome and how it would be received. Pestle (Political, Economic, Social, Technological, Legal and Environmental) analysis is adopted for determining an answer to these questions and used for business and strategic planning, marketing, planning, organizational change, business and product development and research reports.

Political Analysis include government rules and regulations, Political instability (hartal, strikes) and Export, import policy. Political condition of our country has been quite stable during the last few year and we neither faced any big troubles while carrying our regular business activities nor were any government rules and regulations against us.

Economic Analysis include Exchange rate and interest rate fluctuations, global economic crisis, and fluctuation in GDP growth rate due to pandemic situation. Bangladesh has emerged as one of the fastest growing countries of the world in terms of achieving high Gross Domestic Product. Currently, the country has been recognized as developing country from LDC grade. Standards of living have been improving in recent years which are visible in the economic growth of the country. Paramount Textile PLC aspires to be one of the major contributors to the economy of Bangladesh through its contribution to the national exchequer and at the same time by delivering stable shareholders return. There are more than 15,500 people directly and indirectly involved with the operation of paramount Textile and the company is committed to provide maximum possible living standards for its stakeholders.

Social Analysis being a responsible company, we have taken numerous CSR & welfare initiatives for the betterment of the society beyond commercial boundaries. Internally we continued to adopt sound human resource practices to nurture our valued staffs.

Technological Analysis We continue to make investments in research and development to deliver innovation that satisfies diverse consumer preferences. We have adopted all world standard technology for maintaining our production process.

Legal Analysis Paramount Textile is being regulated by the Companies Act 1994. As a public limited company we also follow the Rules, Regulations of Stock Exchanges, Bangladesh Securities and Exchange Commission (BSEC), RJSC, CDBL etc. as well as any other applicable laws as much required.

Environmental Analysis with rising global awareness on the negative impact of climate change, Paramount Textile regularly conducts plantation activities across the country for reduction of carbon footprint and use energy efficient technology, machineries, establishing Biological ETP, solar energy, LED Certified establishments among others to reduce carbon emissions. We believe that any business has corporate social responsibility in helping the society to achieve the necessary sustainable balance of economic growth, environmental protection and social progress.

SWOT ANALYSIS

Strengths

- Environment friendly State-of-the-Art Machineries

Provide scholarship to poor student

Establishing Medical college and Hospital

Goal 5 : Gender Equality

To reduce gender Inequality Company always refer female employees on work.

Supporting the women community for their economic freedom.

Goal 6 : Clean water and sanitation

Installed new technology for reduced water usage

Liquid and solid waste management

Reuse waste management system

15,10,500 cubic litter capacity "water Reservoir" where we reserve Rain water

Goal 7: Affordable and clean energy

In line with Govt. focus the company already invested energy sector i.e. HFO based & Solar based power plant to ensure electricity for all which help

sustainable economic development of the country.

Goal 8: Decent work and economic growth

Cultivation of productive workplace

Continuous employee training and development

Goal 9: Industry, innovation and infrastructure

Innovation of new products

Establishment of new new Goal 10: Reduced inequalities

Equal treatment of employees regardless of religion,

gender, age, race and ethnicity

Goal 11: Sustainable cities and communities

SUSTAINABLE BUSINESS FOR A SUSTAINABLE WORLD

Sustainability reporting enables organizations to consider their impacts of wide range of sustainability issues, enabling them to be more transparent about the risks and opportunities they face. We made our sustainability report on economy, environment, Product, Good Employee practice and social impacts caused by everyday activities of our organization. Our sustainability report presents the organization's values and governance model, and demonstrates the link between its strategy and its commitment to a sustainable world.

Sustainability reporting can help us to measure, understand and communicate economic, environmental, social and governance performance, and based on these we set goals, and manage change more effectively.

Sustainability Reporting Guidelines

Paramount Textile PLC sustainability reporting has been prepared on the basis of guidelines from the Global Reporting Initiative (GRI). It aims to provide only disclosures and indicators that are material to the business about the economy, Product, environmental, Good Employees Practice and social impacts that really matter.

Sustainability Focus

- Energy and GHG Reduction
- Water Consumption Reduction
- Chemical Management
- Wastewater Management
- Waste Management
- Sustainable Yarn Sourcing
- Corporate Social Responsibility

Business Motto

**Better Business for
Greener Future"**

Sustainability Initiatives

Roof Top Solar
1.2 MW Roof Top
Solar is
present.

EGB Boiler
8 Tons per Hour
(TPH)
Boiler is present.

**Machine Cooling
Water Reuse**
Water Saving 40%
per year.

Chemical Management:

Workers Health & Safety: PPE, MSDS, Secondary Containment
Chemical Training: GHS Pictogram, MSDS's different points, Emergency Situation Handling
Chemical Store Management: Segregation, Proper Labelling,- Hazard Zone, Proper MSDS, Temperature Control
Safe Handling Equipments: Chemical Spillage Kit Box, Eye Wash and Safety Shower Station, Fire Extinguisher, First Aid Box
Chemical Auto Dispensing
ZDHC MRSL Chemical Compliance Percentage (99.49%)

Waste Management

Re-Use Carton
Re-Use Paper Cone
Hazardous Sludge Dispatching to Lafarge-Holcim
Cement Industry for Geo-Cycle Process
Used Lubricating Oil Dispatching to Min Oils Ltd. (Bangladesh Petroleum Corporation Approved)

Corporate Social Responsibility

Relief Distribution to the Flood Affected People
Health Safety Program and Awareness Program during Corona Pandemic.
Build Mosque, School, Madrasha and these are opened for all, also donating regularly to continue these institutions.
Distribute Winter Dress and Blanket to the Poor, Helpless people during Winter Season.

Wastewater Management

Biological ETP, Capacity: 4800 m³/day, Brand: Panta Rei
Removing 95% of Inlet Pollution Load
Eco-Friendly Process and Less Chemical Consumption
Meeting Requirements of Do.E and ZDHC
Using ETP Outlet Water: Gardening, Car Washing, Toilet Flushing, Road Cleaning

Sustainable Yarn Sourcing

80% Use of Sustainable Yarn like Organic Yarn, BCI Cotton, Eco-Vera Viscous, Pre-Consumed Recycle Blended Yarn
Year to Year Increasing the Percentage of Using these Sustainable Yarn

As per the score of the year 2022, Paramount Textile is upgraded as the grade "Silver" by our valuable client C&A.

Energy and GHG Reduction

Goal

We are committed to contribute in GHG reduction & will become Net Zero by 2040.

Strategy

- Energy Efficiency : Implementing Energy Efficiency Projects
- Renewable Energy : Roof Top Solar Installation
- Technology Upgradation: Implementing upgrade Technology

Target

- 22% GHG Reduction by 2025 against the Baseline.
- Baseline : 6.03 Kg CO2 eq. /Kg (Year 2021)

Energy Saving Commitment

Paramount Textile is committed to reduce consumption of Fossil Fuel, contribute in GHG Reduction and moving forward to the Renewable Energy.

Achievement

We have reduced 3.91% of GHG from the year 2021 to 2022.

CONDENSATE RECOVERY SYSTEM

AIR-TO-AIR HEAT RECOVERY

WASTE HEAT RECOVERY BOILERS

ENERGY EFFICIENT MACHINE (YARN DYEING - LORIS BELLINI)

HOT WATER CHILLERS

ENERGY EFFICIENT MACHINE (FABRIC DYEING - DANITECH)

ECONOMIZERS

ENERGY EFFICIENT MACHINE (FABRIC DYEING - THERMOSOL)

INVERTER

ENERGY EFFICIENT MACHINE (CPB FABRIC DYEING - KUSTER)

LED LIGHTS

ROOF TOP SOLAR (A SUSTAINABLE SOLUTION)

Ground Water Consumption Reduction

Achievement
 We have reduced 20.59% of Groundwater Extraction from the year 2021 to 2022.

Goal

We are committed to contribute in Water Consumption Reduction & will 100% wastewater recycle by 2030.

Strategy

By implementing a water Re-use & Recycling system combined with a water-efficient dyeing machines & process and employee-driven water conservation initiatives, Paramount Textile aim to reduce its water consumption to reduce water footprint.

Target

30% Recycling of Wastewater to Reuse it in the manufacturing process within the next 03 years footprint.

RAIN WATER HARVESTING FOR PROCESS USE

Total 5,067 m3 water saved by Rain water harvesting.

RAIN WATER HARVESTING FOR DOMESTIC AND EMERGENCY USE

We are committed to maximum utilization of rainwater.

REUSE OF MACHINE COOLING WATER

Total 7,80,289 m3 water saved by reusing of machine cooling water.

WTP BACKWASH WATER REUSE

Total 12,615 m3 water saved by reusing of WTP Backwash water.

LOW LIQUOR YARN DYEING MACHINES (LORIS BELLINI)

In Paramount Textile, we have 03 Loris Bellini Dyeing Machines of capacity 7 ton/day, which save 3,808 m3 water in this year.

LOW LIQUOR SOFT FLOW DYEING MACHINES (DANITECH)

By Danitech machine, 19,600 m3 was saved in this year.

SHIFT TOWARDS WATER EFFICIENT DYES AND CHEMICALS

Example of some water efficient dyes using in Paramount Textile are Remazol, Levafix, Drimaren, Corafix, Avitera, Bercolin, Pigmaset, Coralene, Corazol, Novacron, Coracive

DIGITAL PRINTING: A UNIQUELY WATER-SAVING PRINTING MACHINE

We have Atexco High speed digital textile Printer, Capacity 8,000 meter/day

Goal

To achieve 100% ZDHC MRSL Chemical Compliance, which is regarded as green chemical.

Strategy

Paramount Textile is continuously strive for excellence to perform better chemical management practice. As a part of it, we are continuously searching ZDHC Level 03 Chemicals to use in our production, which is less hazardous for human/environment.

Achievement

Already Paramount Textile has achieved 99.49% of ZDHC MRSL Chemical Compliance in the year 2023

Workers Health and Safety

Without Secondary Containment, PPE and MSDS, no hazardous chemical is stored.

Chemical Training

We are maintaining time to time training to the workers periodically regarding MSDS, GHS Pictogram, PPE, Emergency Situation Activities etc.

Chemical Store Management

We are conducting internal audit periodically to inspect the chemical store condition to confirm their compliance.

Safe Handling Equipments

We are periodically checking these Safe Handling Equipments to confirm that they are in usable condition for operation.

Chemical Auto Dispensing

By using Auto Dispenser Machine, chemical waste amount is reduced about 0.25%. So, potential risk of hazard chemical handling is reduced, as well as subsequent environmental impact is also reduced.

Ø ZDHC
Zero Discharge of
Hazardous Chemicals

We are now just 0.51% less to reach the milestone of 100% ZDHC MRSL Chemical Compliance

ETP Outlet water Re-Use ETP Chemical Consumption Reduction

Paramount Textile established a Biological ETP having capacity 4800 m³/day by a Renowned European Brand named Panta Rei Water Solution.

This is an environmental friendly and Conventional Activated Sludge Process having about 95% reduction capacity of inlet pollution load with cheaper operating cost.

ETP outlet parameters are well-controlled, meeting the Do.E, ZDHC as well as all buyers requirements tested by in house lab as well as third party.

Our ETP is 100% biological & biological ETP use nature's own mechanisms to purify water, eliminating the need of chemical additives. This means the treatment process is more eco-friendly.

We believe in the maximum utilization of Environmental Resources. As a part of this, we are partially utilizing ETP Outlet water in various purposes instead of fully drain it.

ETP Outlet Water Re-Use Sectors:

- Gardening*
- Car Washing*
- Road Cleaning*
- Toilet Flushing*

Also, after installing Biological ETP at the year 2016, our chemical consumption in the ETP is decreased as almost half. During Chemical ETP from the year 2008 - 2015, our chemical consumption was almost 1 ton/day (PAC, Decoloring Agent, Polymer). After installing Biological ETP from the year 2016, our chemical consumption reduces to 0.5 ton/day (only Sulfuric Acid for pH control). As a result, after installing Biological ETP, we both reduced chemical types and chemical consumption quantity, which is also plays an important role to reduce the impact on the environment.

WASTE MANAGEMENT

All wastages in factory premises are tracked and monitored regularly by tracing hazard and non-hazard categories and kept in wastage store.

Wastage Cartons & Paper Cones are collected which are generated from production processes within the factory. Those are then checked, cleaned & refurbished. After that, those are Reused in Manufacturing Activities. In 2022, we have Reused total 11,900 Kg of Wastage Cartons & Paper cones

Waste Management: Hazardous Sludge

Hazardous ETP Sludge is dispatched to the Geo-Cycle unit of Lafarge-Holcim Cement Industry to process in a Eco-Friendly Way. In the year 2022, we disposed 7.3 tons of sludge to the Lafarge-Holcim Cement Industry and they disposed it by incineration process (at 1450 Deg. Celcius).

Waste Management: Used Lubricating Oil

Used Lubricating Oil is dispatched to registered reclamation plant & BPC approved companies according to National Energy Policy. This year we have dispatched 1344 liters used lubricating oil to MIN OILS which is BPC approved.

SOCIAL

PROMOTING EDUCATION

Paramount Textile always trying to ensure “Education for all” among all of its employee’s children and neighbors. That’s why the company has been made a Building at nearby school & also made Mosque, Mandir for enhancing religious sprits

ENVIRONMENTAL PERFORMANCE & GREEN INITIATIVES

Environment is a sole factor for the existence of life on the earth. Without it, no existence of life on earth but there is a drastic environment change due to global warming, excessive pollution, Industrialization etc. Regardless this Paramount Textile very much concern about sustainable environment and always committed to a clean environment. We always follow the rules of “Reduce, Reuse & Reprocess strategy” in our business policy.

Green initiative helps to reduce air pollution and environmental toxins by using alternative energy sources and avoiding the burning of fossil fuels, recycling and reducing waste and driving more efficiently. As a part of green initiative Paramount Textile took following initiatives for sustainable environment.

As part of sustainable environment and green initiatives Paramount Textile takes following measure:

- We setting up “Biological ETP & WTP” in our factory, upon recycling the sludge from this we use it as Fertilizer & also used the treated water in Gardening.
- We setting up “Caustic Recovery Plant (CRP)” in our factory through which we recycle & reuse Caustic which reduce environmental pollution and as well minimize the PH level in water.
- We have a 15,10,500 cubic litter capacity “Water Reservoir” where we reserve Rain Water. During technical complexities / urgencies we use these water in our Fire Hydrant as well as our Production process. Moreover in case of emergency we help closely located factory during their distress situation.
- We use “Cogenerated Exhaust Gas” in our Chiller & Boiler through which we save 9,888 Cubic feet gas hourly which save the mother earth and reduce the carbon emissions.
- We reuse almost 80% of our produced stem Condense which save a substantial quantity of Gas in production process.
- We reuse Cool Down used water during our production machineries. Through which it is reducing the load to ground water which also save electricity consumption in production.
- We do Heat Recovery by using latest technologies machineries in our production process which save substantial amount of Heat and safe environment.
- We use our basic Raw Materials like Yarns viz organic, Ecobera, Supima, BCI, post recycle cotton

etc and for Dyes & Chemical we use “Blue Sign” certified Dyes & chemicals which are environment friendly and safe for mother earth. For that reason, the slugs of our ETP & WTP are not harmful to environment.

- We already setting-up “25 KW Solar Panel” in our factory and also used Energy Savings LED light in all over the factory which reduce & save substantial amount of Electricity.
- We use “Transparent Sheet” in our establishments through which we save huge amount of Electricity and reduce carbon emissions.
- We use fabrics, paper in our packaging stages and restricted poly into factory.
- Adopting green office guidelines.
- Encourage E- communication over paper correspondence
- Reduction of chemical consumption
- Tree plantation
- Conduct Public awareness program.
- Conducting our business in harmony with the environment etc.

Future plan:

- Business Automation
- Paperless office
- Converting all establishment as LEED Certified Building
- Setting up energy savings machineries etc.

DIRECTORS REPORT

Dear Shareholders,

Assalamualaikum

On behalf of the Board of Directors and on my own behalf I warmly welcome all of you to the 17th Annual General Meeting of your company. The Board of Directors is pleased to take the opportunity to present you the Directors Report for the year ended 30 June 2023 according to section 184 of the Companies Act, 1994, Rule 12 (and the schedule there under) of the Securities and Exchange Rules, 1987, BSEC Order No. BSEC/CMRRCD/2006-158/207/Admin/80 dated June 03, 2018 and IAS-1 codes as adopted by the Institute of Chartered Accountants of Bangladesh in the following paragraphs:

Bangladesh Economy

The country's Gross Domestic Product (GDP) stood a relatively healthy to 6.03 percent and the country's per capita income reaching \$2,765. The GDP growth that the country saw the last time was in FY 2001-02, which was 4.36 percent, according to data from the BBS. GDP growth was 7.10 percent in FY-22, 6.94 percent in FY-21, 5.24 percent in FY-20, 8.13 percent in FY-19, 7.86 percent in FY-18 and 7.28 percent in FY-17. The country's remittance earnings increased by 2.75 percent year-on-year to \$ 21,610.66 million in the just concluded fiscal year 2022-23 with the country's foreign reserve exceeding \$ 31.20 billion.

Textile Industry Scenario:

Industrialization is a major reason for the economic development of a country. It plays a significant role in transforming the monetary structure of developing nations. Textile industry of Bangladesh is more than 500 years old. It is one of the oldest and most successful industries with its rich history.

Moreover today the developed countries are hugely dependent on the developing nations for textile and garment manufacturing. At present, Bangladesh ranks second in the world as the largest apparel producers with a \$50 billion business in which 81% is earned by exporting goods.

There are three fundamental factors which have boosted the growth of textile in Bangladesh. The country has plenty of resources, opportunities, and beneficial government policies. In Bangladesh

large number of labor workers can be found. Also, natural gas and cost of energy is cheap. With huge population, labor is abundant, and Bangladesh has an advantage in producing labor intensive products.

The main reason for the development of the textile industry in Bangladesh is the hardworking labor force. They put in more working hours to complete the target. Therefore, in recent times the per capita income of the country and the standards of living of the people have improved. Secondly, the country acquired an advantageous opportunity to trade with America and the European countries in readymade garments segment.

These opportunities were supported by the government policies which sustained the growth of textile in Bangladesh. The liberal government policies promoted investments from foreign countries. The garment industry of Bangladesh is renowned and holds a major place in the world market today. The textile industry of the country has specialized textile goods, knitwear, and woven apparels. These products top in grabbing the export income for the country.

The new textile policies which have been introduced almost have no tariffs for the spinning sector. However, the imported yarns and materials have high tax rates so as to encourage the use of local fabrics and yarn production. All these factors worked together in favor of the textile development in Bangladesh. Nevertheless, in the past ten years the country has witnessed the growth of spinning industry.

Principal Activities:

The principal activities of the company continued to be manufacturing and marketing of yarn dyed woven fabrics to its customers. Besides that the Company also carried out yarn dyeing, solid dyeing and printing facilities business as well.

বাংলাদেশের অর্থনীতি

২০২২-২৩ অর্থবছরে দেশের মোট জিডিপি প্রবৃদ্ধি দাড়িয়েছে ৬.০৩ শতাংশ এবং মাথাপিছু আয় হয়েছে ২,৭৬৫ ডলার। বিবিএস প্রতিবেদন অনুযায়ী ২০২২ অর্থবছরে জিডিপি প্রবৃদ্ধি ছিল ৭.১০ শতাংশ, ২০২১ অর্থবছরে জিডিপি প্রবৃদ্ধি ছিল ৬.৯৪ শতাংশ, ২০২০ অর্থবছরে জিডিপি প্রবৃদ্ধি ছিল ৫.২৪ শতাংশ, ২০১৯ অর্থবছরে ছিল ৮.১৩ শতাংশ, ২০১৮ অর্থবছরে ছিল ৭.৮৬ শতাংশ এবং ২০১৭ অর্থবছরে ছিল ৭.২৮ শতাংশ। ২০২১-২০২২ অর্থবছরে দেশের রেমিট্যান্স আয় পৌঁছেছে ২১.৬১ বিলিয়ন মা: ডলার এবং মোট বৈদেশিক সঞ্চয় ছাড়িয়েছে ৩১.২০ বিলিয়ন মা: ডলারে।

বাংলাদেশের টেক্সটাইল শিল্প

একটি দেশের অর্থনৈতিক উন্নয়নের প্রধান হাতিয়ার হল শিল্পায়ন। এটি একটি দেশের আর্থিক কাঠামোর পরিবর্তনে গুরুত্বপূর্ণ ভূমিকা পালন করে। বাংলাদেশের বস্ত্রশিল্প দেশটির অর্থনৈতিক উন্নয়নের প্রধান ভূমিকা পালন করে আসছে, এই শিল্পটির ইতিহাস ৫০০ বছরেরও বেশি পুরাতন। ইহা একটি প্রাচীন এবং সবচেয়ে সফল শিল্পগুলোর মধ্যে অন্যতম। আজ উন্নত দেশগুলো বস্ত্র ও পোশাক উৎপাদনের জন্য উন্নয়নশীল দেশগুলোর ওপর ব্যাপকভাবে নির্ভরশীল। এই সুযোগ কাজে লাগিয়ে বর্তমানে পোশাক উৎপাদকারী দেশ হিসাবে বাংলাদেশের অবস্থান বিশ্বের মধ্যে দ্বিতীয়।

বাংলাদেশে টেক্সটাইল শিল্প প্রবৃদ্ধি পিছনে তিনটি মৌলিক বিষয় রয়েছে। যা হল প্রচুর সম্পদ, সুযোগ এবং উৎপাদন সহায়ক সরকারি নীতিমালা। এদেশে কম মুজুরিতে প্রচুর সংখ্যক শ্রমিক পাওয়া যায় এটাও টেক্সটাইল শিল্প প্রবৃদ্ধি পিছনে আর একটি অন্যতম কারণ। এছাড়াও প্রাকৃতিক গ্যাস ও বিদ্যুৎ খরচ অন্যান্য দেশের তুলনায় কম।

বাংলাদেশের বস্ত্র শিল্পের বিকাশের প্রধান হাতিয়ার হল পরিশ্রমী শ্রমশক্তি। যথাসময়ে কার্যসম্পাদনে তারা কর্ম ঘন্টার চেয়ে অনেক বেশি কাজ করে থাকে যা সাম্প্রতিক সময়ে দেশের মাথাপিছু আয় ও মানুষের জীবনযাত্রার মান উন্নয়নে ভূমিকা রাখছে। তাছাড়াও দেশটির তৈরি পোশাকখাত আমেরিকা ও ইউরোপীয় দেশগুলির সাথে বাণিজ্য করার সুযোগ অর্জন করেছে। এই সুযোগগুলো সরকারি নীতিদ্বারা সমর্থিত ছিল যা বাংলাদেশের টেক্সটাইল শিল্পের প্রবৃদ্ধিকে টিকিয়ে রেখেছে। উদ্যোগপন্থী সরকারের নীতিগুলো বিদেশি বিনিয়োগকারীদেরকে উৎসাহিত করেছিল।

বাংলাদেশের পোশাক শিল্প আজ বিশ্ববাজারে সুপরিচিত এবং একটি সম্মানজনক অবস্থান দখল করে আছে। দেশের বস্ত্র শিল্পের মধ্যে রয়েছে টেক্সটাইল পণ্য, নিটওয়্যার এবং বোনন পোশাক। এসব পণ্য দেশের রপ্তানি আয়ে শীর্ষ স্থান দখল করে আছে। নতুন যে টেক্সটাইল নীতিগুলো চালু করা হয়েছে তাতে স্পিনিং সেক্টরের জন্য শুষ্ক মুক্ত করা হয়েছে। অন্যদিকে আমদানিকৃত সুতা এবং উপকরণ এর উপর উচ্চ হারে কর বসানো আছে যাতে করে স্থানীয় কাপড় ও সুতা উৎপাদনকে উৎসাহিত করা যায়। বাংলাদেশের বস্ত্র শিল্প উন্নয়নে এই সমস্ত সকল উপকরণ কাজ করছে যার সাক্ষী হচ্ছে গত দশ বছরের স্পিনিং শিল্পের প্রবৃদ্ধি।

মূখ্য কার্যক্রম:

কোম্পানীর মূখ্য কার্যক্রম হল ইয়ার্ন ডাইড ফেব্রিক্স উৎপাদন করে ক্রেতাদের কাছে বাজারজাতকরণ করা। এছাড়াও কোম্পানী ইয়ার্ন ডাইং ও সলিড ডাইং ব্যবসা করছে এবং থ্রে ফেব্রিক্স প্রিন্টের ব্যবসা ও শুরু করেছে।

বাংলাদেশ সিকিউরিটিজ এন্ড এক্সচেঞ্জ কমিশনের নির্দেশনা বিএসইসি/সিএমআরআরসিডি/২০০৬-১৫৮/১৩৪/২০৭/এডমিন/৮০, তারিখ-জুন ০৩, ২০১৮ অনুযায়ী পরিচালকবৃন্দ নিম্নোক্ত বিষয় গুলো সম্পর্কে নিশ্চয়তা দিচ্ছে:

(i) প্রতিষ্ঠানটির সম্ভাব্য ভবিষ্যৎ সমৃদ্ধিঃ

টেক্সটাইল ও পোশাক শিল্প "প্রাথমিক পোশাক" ও "রপ্তানীমুখী তৈরি পোশাক" এই দুই অংশে বিভক্ত। প্রাথমিক পোশাক শিল্পে তুলা থেকে সূতা, সূতা থেকে বিভিন্ন পর্যায় (সূতা রং করা, কাপড় বুনানো, কাপড়ের ফিনিসিং করা, প্রিন্ট করা ইত্যাদি) পোশাক তৈরীর উপযোগী কাপড় তৈরী পর্যন্ত অন্তর্গত।

টেক্সটাইল মিল সমূহ পোশাক শিল্পের মেরুদণ্ড। প্যারামাউন্ট টেক্সটাইল এই শিল্পে অতি উচ্চমানের কাপড় তৈরী করার কাজে নিয়োজিত। কোম্পানীটি ১০০ ভাগ রপ্তানীমুখী ডাইড ওভেন ফেব্রিক তৈরী করে থাকে যা বিশ্বের নামী-দামী পোশাক প্রস্তুতকারী ক্রেতা কোম্পানীগুলো পোশাক তৈরীর জন্য ব্যবহার করে। পোশাক ক্রেতা কোম্পানীগুলো তাদের প্রয়োজন এবং পছন্দমত কাপড় তৈরীর জন্য অর্ডার দিয়ে থাকে এবং প্যারামাউন্ট টেক্সটাইল ক্রেতার প্রয়োজন অনুযায়ী কাপড় তৈরী করে তা তাদের মনোনীত গার্মেন্টস ফ্যাক্টরীতে সরবরাহ করে। ব্যাক টু ব্যাক এলসির মাধ্যমে এই কাপড় সরবরাহ করা হয়। সূতা রং করা থেকে শুরু করে পোশাক তৈরীর আগ পর্যন্ত যা যা করা প্রয়োজন তার সবকিছু করার সুবিধা প্যারামাউন্ট টেক্সটাইলে রয়েছে।

যেহেতু তৈরী পোষাকের চাহিদার উপর নির্ভর করে কাপড় তৈরী করা হয়, সেহেতু ফেব্রুয়ারি মিল সমূহের উন্নয়ন বা সম্প্রসারণ তৈরী পোষাকের চাহিদা এবং তা' সম্প্রসারণের উপর নির্ভর করে। যেহেতু খুব কম পারিশ্রমিকে বাংলাদেশে তৈরী পোষাক বানানো সম্ভব তাই এই খাত সম্প্রসারণ এবং উন্নয়নের সমূহ সম্ভাবনা রয়েছে। এ ছাড়াও যেহেতু গত ৮/১০ বছরে বাংলাদেশের ফেব্রুয়ারি সংক্রান্ত বিভিন্ন পর্যায়ের কারিগরি বিষয়ে অনেক উন্নতি সাধিত হয়েছে এবং শ্রমিক-কর্মচারী ও কর্মকর্তাগণ দক্ষ হয়ে উঠেছে, সেহেতু ক্রেতার সহজেই বাংলাদেশের প্রতি আকৃষ্ট হচ্ছেন বলে ধরে নেয়া যায়। সেক্ষেত্রে প্যারামাউন্ট টেক্সটাইলেরও ভবিষ্যৎ সম্প্রসারণ এবং সমৃদ্ধি অবসম্ভাবী।

(ii) বিভাগভিত্তিক বা পণ্য ভিত্তিক কর্মক্ষমতা:

কোম্পানী উচ্চ মান সম্পন্ন বিভিন্ন রং, মাত্রা, মান কন্ট্রোলকশন প্রণালী ইত্যাদি ওভেন ফেব্রুয়ারি তৈরী করছে বিভিন্ন দেশে ক্রেতাদের জন্য। এগুলোর পাশা পাশি কোম্পানী নিট ইয়ার্ন ডাইং, সোয়েটার ইয়ার্ন ডাইং এবং প্রিন্টিং এর ব্যবসা ও করছে।

মূলত: কোম্পানীর রাজস্ব আয় **deemed Exporter** হিসাবে ব্যাক টু ব্যাক এল সি এর মাধ্যমে তৈরী পোশাক কারখানায় বিক্রয়ের মাধ্যমে অর্জিত হচ্ছে।

(iii) ব্যবসায়িক ঝুঁকি ও অনিশ্চয়তাসমূহ:

প্যারামাউন্ট টেক্সটাইল লিঃ তৈরী পোষাক শিল্পের ব্যাকওয়ার্ড লিংককেজ হিসাবে ব্যবসা পরিচালনা করে যাচ্ছে। অতএব এর ঝুঁকি সর্বদা বৈশ্বিক চাহিদা ও যোগানের সাথে সম্পর্কযুক্ত। উন্নত বিশ্বের যে কোন ধরনের আর্থিক মন্দা সরাসরি এই ব্যবসার উপর নেতিবাচক প্রভাব ফেলে। বর্তমানে তাদের চাহিদা বৃদ্ধি পাওয়ায় বাংলাদেশের বাজারও দ্রুত বৃদ্ধি পাচ্ছে।

অধিকতর সরকারী নীতির উপর এ ঝুঁকি ও উদ্বেগ নির্ভর করে। যাই হোক পোষাক খাত দেশে সর্ববৃহৎ বৈদেশিক মুদ্রা অর্জনকারী খাতে পরিনত হওয়ায় সর্বদা সরকারের বিশেষ প্রনোদনা উপভোগ করছে এবং সরকার এ ধারাবাহিকতা রক্ষা করবেন বলে আশা করা যায়।

উক্ত বার্ষিক প্রতিবেদনের ১৪১ নং পৃষ্ঠায় কোম্পানি ঝুঁকি ও ঝুঁকি ব্যবস্থাপনা পদ্ধতি তুলে ধরা হয়েছে।

REPORT OF RISK MANAGEMENT COMMITTEE

Risk is defined as the chance of exposure to the adverse consequences of uncertain future events. This is an integral part of any organization. As a routine work the company's risk management team work intensively to identification, assessment, and prioritization of risks followed by coordinated and economical application of resources to minimize, monitor, and control the probability and/or impact of unfortunate events or to maximize the risk within the set limit. The risk management team always taking into consideration internal and external factors while taking initiatives to control and mitigate risks considering threat to sustainability and negative impact on environment.

The company's risk management policies are established to identify and analyze the risks faced by the company to set appropriate risk limits and controls and to monitor risks and adherence to limits.

The company has experience to the following risks from its operation;

- Operational risk
- Credit risk
- Liquidity risk
- Market risk
- Price fluctuation risk
- Currency risk
- Interest rate risk
- Sustainability & Environment impact

The company management has overall responsibility for the establishment and oversight of the company's risk management framework.

Operational risk

Operational risk addresses the risk associated with fraud, forgery, unauthorized activities, error omission, system failure and external events others. Pre-prescribed Checklist, Credit Inspection report, strong surveillance team etc are in place covering all probable risks associated with company's business and operations. Surprise audits and frequent inspections are also made on a regular basis by internal audit team to make sure that all control tools are functioning properly.

Credit risk

Credit risk is the risk of a financial loss to the company if a customer or counterparty to a financial instrument fails to meet its contractual obligations and principally from the company's receivables from subscribers; interconnect operators roaming partners and dealers.

Management has a credit policy in place and the exposure to credit risk is monitored on ongoing basis. In monitoring credit risk, debtors are grouped according to whether they are an individual or legal entity, ageing profile, maturity and existence of previous financial difficulties. Accounts and other receivables are mainly related to the company's subscribers. The exposure of the company to credit risk on accounts receivables is mainly influenced by the individual payment characteristics of post-paid subscribers. Interconnection receivables are normally paid within three months from when they are invoiced and credit risk from this receivable is very minimal. The company employs financial clearing houses to minimize credit risk involving collection of roaming receivables. Credit risk does not arise in respect any other receivables.

At the reporting date, there were no significant concentrations of credit risk. The maximum exposure to credit risk is represented by the carrying amount of each financial asset in the statement of financial position.

Liquidity risk

Liquidity risk is the risk that the company will not be able to meet its financial obligations as they fall due. The company's approach to managing liquidity (cash and cash equivalents) is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the company's reputation. Due to business expansion, presently the company facing little bit liquidity risk to smooth operation. Typically, the company ensures that it has sufficient cash and cash equivalents to meet expected operational expenses, including financial obligations through preparation of the cash flow forecast, prepared based on time line of payment of the financial obligation and accordingly arrange for sufficient liquidity / fund to make the expected payment within due date.

Market Risk

Market risk is the risk that changes in market conditions, customer behavior, business reputation loss by the country, market prices, such as foreign exchange rates and interest rates will affect the company's income or value of its holding of financial instruments. Due to declining Turkish market business and new factories setting up China, India, Indonesia, Ethiopia etc in the coming days it will be difficult to operate business smoothly. The objective of market risk management is to manage and control market risk exposures within acceptable parameters.

Price Fluctuation Risk

Paramount Textile along with other companies in the industry faces price fluctuation risk because of volatility of yarn price in the market emanating from fluctuation of raw cotton price in the international market. In recent times the price of yarn has considerably fluctuated in local and global market and the continuance of this will put pressure on the cost of production as well as price of finished goods. Paramount Textile procures maximum raw materials (Yarn, Dyes and Chemicals) from abroad and provides the finished goods (fabrics) to some export oriented local garments and buyers. So considering the volatility of raw material price as well as finished goods price in the international market, CRISL foresees that the company is exposed to price fluctuation risk.

Currency risk

The company is exposed to currency risk on certain revenues and purchases, resulting receivables and payables, and interest expense and repayments relating to borrowing incurred in foreign currencies. Majority of the company's transactions are denominated in USD. The Company has not entered into any type of derivative instrument in order to hedge currency risk due to stable exchange rate in the country and inflow of USD.

Interest rate risk

Interest rate risk is the risk due to changes in interest rates on borrowing. The risk arises for fluctuation of floating interest rates. The company has not entered into any type of derivative instrument in order to hedge interest rate risk as at 30 June 2018 due to upward movement in LIBOR rate and a stable money market in the country.

Sustainability & Environment impact:

The management is committed to manage and protect environment as an integral part of its business. To reduce environmental footprint, the company has formed an Environmental Management System (EMS) team. Standard environmental policy has been formulated which addresses management of:

- Water use
- Waste Water
- Air Emissions
- Waste management
- Energy and GHG
- Chemical management

The management has efficiently readdressed above issues to ensure sustainable business. We are also a very strong advocate of an Eco-friendly and Green environment for ensuring sustainable development and have undertaken multifarious steps like Energy cogeneration in our Factory. To further reduce the carbon footprint, we have a planned afforestation program whereby trees are being planted regularly all over our factory premises.

Our vision has emerged to become one of the leading and most trusted yarn & solid dyed fabric manufacturer attaining sustainable development in business. We focus on environmentally friendly state-of-art machineries and promote safe working conditions for our colleagues.

As discussed above, it may be deemed that the company is trying to manage its risk within its target limit which is within its control but which are dependent on macro & world economy situations. The best that can be achieved is reasonable management of the risk to which the company is exposed through a sound management process based on the most accurate, timely and intensive manner.

Risk Management Framework:

Risk Mitigation Methodology:

Risk mitigation is a process to taking steps to reduce adverse effects.

Operational risk:

- Effective employee engagement
- Ensuring appropriate segregation of duties
- Remediation activities

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Risk	Our response to the risk
Revenue Recognition At the year ended, the company's reported total revenue of Tk. 9,463,818,403 and Tk. 8,609,801,869 in the company's consolidated and separate financial statements respectively. Revenue from sale of goods are measured at fair value of consideration received or receivable net off return and allowance trade discount volume rebates exclusive of VAT. Some of sales contracts contain various performance obligation and management exercises judgment to determine timing of revenue recognition i.e. over time or a point in time. There is the risk the revenue may be overstated due to early recognition of export executed to achieve the desire result. The timing of the revenue recognized and realized increases the risk of exposure of revenue to foreign exchange fluctuations. The Revenue of subsidiary ISPL was recognized upon transfer of control and when the significant risks and rewards of ownership of the goods and services have passed to the buyer. The revenue recognition has been considered as key audit matter, since it is one of the key performance indicators of the company and also the key financial element which would eventually increase the inherent risk of the company.	We have tested the design and operating effectiveness of key controls focusing on the following: <ul style="list-style-type: none">● Obtaining an understanding of and assessing the design and operating effectiveness of controls designed to ensure that revenue is recognized in the appropriate accounting period.● Policy of revenue recognition● Issuance of VAT challan● Segregation of duties in invoice creation and modification (if any) and timing of revenue recognition.● Assessing the appropriateness of the Company's accounting policies for revenue recognition and compliance of those policies with applicable accounting standards.● Obtaining supporting documents for sale transaction along with checking the recording period of revenue recognition.● Critically assessing manual journals posted to revenue to identify unusual or irregular items, and finally assessed the appropriateness and presentation of disclosures against relevant accounting standards.

Other Matters

The financial statements of the company for the years ended June 30, 2022 were audited by another auditor dated October 27, 2022 and expressed an unqualified opinion on those statements.

The Document Verification Code (DVC) has been taken for separate Financial Statements of Paramount Textile PLC by us the "group auditor" and the DVC of subsidiary Intraco Solar Power Limited has been taken by the component auditor based on the separate Financial Statements of ISPL.

Other Information

Management is responsible for the other information. The other information comprises all of the information in the annual report other than the consolidated and separate financial statements and our auditor's report thereon. The directors are responsible for the other information.

Our opinion on the consolidated and financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated and separate financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is

materially inconsistent with the consolidated and separate financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the consolidated and separate Financial Statements and Internal Controls

Management is responsible for the preparation and fair presentation of the consolidated and separate financial statements in accordance with IFRSs, The Companies Act 1994, The Securities and Exchange Rules 1987 and other applicable laws and regulations and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error. The Companies Act, 1994 require the management to ensure effective internal audit, internal control and risk management functions of the company.

In preparing the consolidated and separate financial statements, management is responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the consolidated and separate Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated and separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated and separate financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated and separate financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated and separate financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated and separate financial statements, including the disclosures, and whether the consolidated and separate financial statements represent the underlying transactions and event in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the company to express an opinion on the consolidated and separate financial statements we are responsible for the direction, supervision and performance of the company audit. We solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated and separate financial statements of the current period and are therefore the key

audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

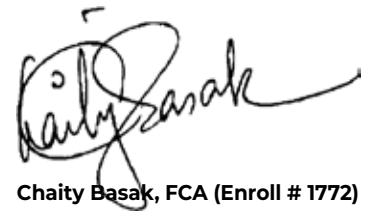

Report on other Legal and Regulatory Requirements

In accordance with The Companies Act 1994, and The Securities and Exchange Rules 2020 and relevant notifications issues by Bangladesh Securities and Exchange Commission, we also report that:

- a. We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit and made due verification thereof;
- b. In our opinion, proper books of accounts , records and other statutory books as required by law have been kept by the company so far as it appeared from our examinations of those books;
- c. The Statement of Financial Position, Statement of Profit or Loss & Other Comprehensive Income and Statement of Changes in Equity and Statement of Cash Flows of the Company dealt with by the report are in agreement with the books of accounts and returns; and
- d. The expenditure incurred was for the purpose of the Company's business.

Notes to the Consolidated Financial Statements
As at and for the Year Ended 30 June 2023**

1.00 Introduction

1.01 Industry outlook

The Readymade Garment (RMG) industry of Bangladesh has emerged as a competent garment producer in the world. For nearly last three decades, the export oriented readymade garment (RMG) industry has been one of the major successes of Bangladesh. In this period, not only a world class export-oriented apparel sector has been built in the country but this sector is showing all the potentials of burgeoning into a far more dynamic one to the great benefit of the economy. There are more than 5,000 garments industries in the country that employs about 4.2 million workers. But the industry is far from reaching a saturation point. Greater volumes are being imported to traditional importing countries like USA and Canada and, significantly, major new markets in Japan. EU countries Australia, New Zealand, South Africa and others are being explored. From the current trends, it appears that Bangladesh could go on to doubling its production capacity RMG easily and fairly soon with beneficial effects of the same in the form of the substantially increased foreign currency earnings, job creation and reduction of poverty.

The contributory factors of the RMG industry in Bangladesh are global trading agreements, cheap labor cost, government's supportive policy and dynamic private entrepreneurship. This industry has successfully transformed Bangladesh into an export-oriented economy. The RMG industry also becomes the major foreign-currency earning sector with highest rates of absorption of industrial employment. The country entered into the export market apparels in 1978 with only 9 units and earned only \$0.069 million. During the last three decades, this sector has been achieving a phenomenal growth and the export earnings have reached to around \$34.14 billion (\$17.24 billion for woven garments and \$16.90 billion for knit garments) during fiscal year 2016-17. The growth of woven garments has been 12.81% and the growth of knit garments has been 7.47% in FY 2016-17. At an average around 80% of the country's total exports and also provided job for about 4.2 million people, which accounted for more than 18% of country's GDP.

The RMG industry has a great potential to earn more foreign currency from Latin America, South Africa, Russia, South Korea, Malaysia and Japan. It can earn up to US\$400 million by exporting apparels to three Latin American. The country can secure a slice of \$4.0 billion apparels market of China, Brazil and Mexico. It can also grab about 14% of South Africans US\$1.20 billion clothing market if the local exporters make an aggressive foray.

The recent financial crises especially in Europe have reduced export to the European Countries. The economic slow-down of Europe has resulted in a fall of purchasing capacity, which has brought forth a downward tendency in importing apparels from Bangladesh. In order to offset the export reduction in EU and USA, Bangladesh exporters are going to dispatch trade missions to South Africa, Malaysia, Australia and Latin American countries. Following the recent agreement between governments of Bangladesh and India, India will be one of the major export destinations. Moreover, the minimum wages of the workers in Bangladesh is one of the lowest in Asia.

Freehold land is measured at cost. Freehold buildings and leasehold buildings are

its purchase price, import duties and refundable taxes (after deducting trade discount and rebates) and any costs directly attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the intended manner.

Part of an item of property, plant and equipment having different useful lives, are accounted for as separate items (major components) of property, plant and equipment.

Cost also includes transfer from equity of any gain or loss on qualifying cash flow hedges of foreign currency purchase of property, plant and equipment. Purchased software that is integral to the functionality of the related equipment is capitalized as part of that equipment.

3.02.2 Subsequent costs

The cost of replacing or upgrading part of an item of property plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the company and its cost can be measured reliably. The costs of the day-to-day servicing of property, plant and equipment are recognized in the statement of comprehensive income as incurred.

3.02.3 Depreciation

No depreciation is charged on freehold land and capital work in progress (CWIP) as the land has unlimited useful life and CWIP is not yet available for use. Depreciation on other items of property, plant and equipment is recognized on reducing balance method basis over the estimated useful lives of each item of property, plant and equipment. The depreciation rate of plant and machinery has been changed this year, considering the current remaining useful lives. Depreciation method, useful lives and residual balance are reviewed each reporting date and adjusted if appropriate.

The annual depreciation rates applicable to the principal categories of Paramount Textile Plc are as follows:

Building & Other Construction	10%
ETP & WTP	10%

The annual depreciation rates applicable to the principal categories of Intraco Solar Power Ltd. are as follows:

Plant & Machinery	5%
Electric Installation	15%
Motor Vehicles	15%
Furniture Fixtures & Fittings	10%

3.02.4 Major maintenance activities

The company incurs maintenance costs for all of its major items of property, plant and equipment. Repair and maintenance costs are charged as expenses when incurred.

3.02.5 Gain or losses on disposal

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss on disposal or retirement of an item of property, plant and equipment is determined as the difference between sales proceeds and the carrying amount of the asset and is recognized with other income or general and administrative expense.

3.02.6 Borrowing costs

As per requirement of IAS 23: Borrowing Costs, directly attributable borrowing costs are capitalized during constructing period for all qualifying assets. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use or sale. The borrowing costs that are directly attributable to the acquisition construction or production of a qualifying asset are those borrowing cost that would have been avoided if the expenditure or the qualifying asset had not been made. All other borrowing costs are recognized in statement of profit or loss and other comprehensive income in the period in which they are incurred.

3.02.7 Capital work in progress

Capital work in progress consists of acquisition cost of capital components and related installation until the date placed in service. In case of import of components capital work in progress is recognized when risk and rewards are associated with such assets are transferred.

3.03 Inventories

Inventories are valued at lower of cost and net realizable value. Costs of inventories include expenditure incurred in acquiring the inventories production or conversion costs and other costs incurred in bringing them to their existing location and condition. Cost of inventories is determined by using the weighted average cost formula. Where necessary allowance is provided for damaged obsolete and slow moving items to adjust the carrying value of inventories to the lower of cost and net realizable value. Net realizable value is based on estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

3.04 Financial instruments

3.04.1 Non-derivatives financial assets

The company initially recognizes receivables and deposits on the date that they are originated. All other financial assets are recognized initially on the date at which the company becomes a party to the contractual provisions of the transaction.

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the company has legal right to offset the amounts intends either to settle on a net basis or to realize the assets and the liability simultaneously.

Financial assets include cash and cash equivalents short term investments, accounts receivable, other receivables and deposits.

3.04.1.1 Accounts receivable

Accounts receivable represents the amounts due from institutional customer export customers etc. Accounts receivable stated at original invoice amount without making any provision for doubtful debts because of the fact that exports are being based on 100% confirmed letter of credit basis with fixed maturity dates.

3.04.1.2 Advance, deposits & prepayments

Advances are initially measured at cost. After initial recognition advances are carried at cost less deductions, adjustment or any other changes.

Deposits are measured at payment value.

Prepayments are initially measured at cost. After initial recognition prepayments are carried at cost less charges to statements of comprehensive income.

3.04.1.3 Cash and cash equivalents

Cash and cash equivalents comprise cash in hand, cash in transit and cash at bank including fixed deposit having maturity of three months or less which are available for use by the company without any restrictions. Temporary negative balance in any bank account that are adjustable and/or repayable on demand form an integral part of the company's cash management are include as a component of cash and cash equivalent. There is insignificant risk of change in value of the sale.

3.04.1.4 Available-for-sale financial assets

Available-for-sale financial assets are recognized initially at value plus any directly attributable transaction costs. Subsequent to initial recognition they are measured at fair value and changes therein other than impairment losses and foreign currency differences or available-for-sale debt instruments are recognized in other comprehensive income and presented in the fair value reserved in equity. When an investment is derecognized the gain or loss accumulated in equity is reclassified to statement of comprehensive income. Available-for-sale financial assets comprise investment in stock market.

3.04.2 Non-derivative financial liabilities

The company recognizes all financial liabilities on the transaction date which is the date the company becomes a party to the contractual provision of instrument. The company derecognizes a financial liability when its contractual obligations are discharged cancelled or expired. Financial liabilities include trade and other payables liability for expense.

3.04.2.1 Trade and other payables

Trade and other payables are recognized when its contractual obligations from past events are certain and settlement of which is expected to result in an outflow from the company of resources embodying economic benefits.

The company recognizes a financial liability at fair value less any directly attributable transaction costs. Subsequent to initial recognition these financial liabilities are measured at amortized cost using the effective interest method.

3.05 Impairment

3.05.1 Non- derivative financial assets

A financial asset not classified at fair value through profit or loss is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after initial recognition of the asset and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

Loans and receivables and held-to-maturity investment securities

The company considers evidence of impairment for loans and receivables and held -to-maturity investment securities at both a specific asset and collective levels. All individually significant receivables and held-to-maturity investment securities are assessed for specific impairment. Those found not to be specifically impaired are then collectively assessed for any impairment that has been incurred but not yet identified. Assets that are not individually significant are collectively assessed for impairment by grouping together assets with similar risk characteristics.

Available-for-sale financial assets

Impairment losses on available-for-sale financial assets are recognized by reclassifying the losses accumulated in the fair value reserve in equity, to profit or loss. The cumulative loss that is reclassified from equity to profit or loss is the difference between the acquisition cost, net of any principal repayment and amortization, and the current fair value, less any impairment loss recognized previously in profit or loss. Changes in impairment provisions attributable to application of the effective interest method are reflected as a component of interest income. If, in a subsequent period, the fair value of an impaired available-for-sale debt security increases and the increase can be related objectively to an event occurring after the impairment loss was recognized in profit or loss, than the impairment loss is reversed, with the amount of the reversal recognized in profit or loss. However, any subsequent recovery in the fair value of an impaired available-for-sale equity security is recognized in comprehensive income.

3.05.2 Non-derivative non-financial assets

In compliance with IAS 36 "Impairment of Assets" the carrying amounts of the company's non-financial assets, other than biological assets, investment property, inventories and deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the assets recoverable amount is estimated. For goodwill, and intangible assets that have indefinite useful lives or that are not yet available for use, the recoverable amount is estimated each year at the same time. An impairment loss is recognized if the carrying amount of an asset or its related cash generated unit (CGU) exceeds its estimated recoverable amount.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less cost to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre tax discount rate that reflects current market assessments of the time value of money and the risks specific to the assets or CGU.

For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGU.

Impairment losses are recognized in profit or loss. Impairment losses recognized in respect of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to the CGU (group of CGUs), and then to reduce the carrying amounts of the other assets in the CGU (group of CGUs) on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the assets carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

3.06 Taxation

The company is a public limited company, as per the income tax act, 2023 the rate of income tax is 15% on business income, 20% on dividend income and 20% on other income since the company is 100% export-oriented Textile industry.

Current tax has been charged at the rate applicable to the company as per Income Tax Act 2023 and Finance Act, subject to provision of section 163 of the ordinance taking higher income of- (a) at the rate of 0.60% of total gross receipts, (b) tax deducted at source for corporate sales u/s 89, tax collected at import stage U/S 120; and tax deducted at source of bank interest income u/s 102, (c) at the applicable tax rate on taxable income.

According to IAS 12 "Income Taxes" deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary difference when they reverse, using tax rates enacted or substantively enacted by the reporting date.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

A deferred tax asset is recognized for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

3.07 Employee benefits

The company maintains a defined contribution plan and short term employee benefits and post-employment benefits for its eligible permanent employees. The eligibility is determined according to the terms and conditions set forth in the respective deeds as well as rules enforceable as per IAS 19 "Employee Benefits".

3.07.1 Defined contribution plan

A defined contribution plan is a post employment benefit under which an entity pays fixed contribution into a separate entity and has no legal or constructive obligations to pay fixed contribution into a separate entity and has no legal or constructive obligations to pay further amounts. Obligations for contributions to defined contribution

plan are recognized as an employee benefit expense in statement of comprehensive income in period during which related services are rendered by employees. Prepaid contributes are recognized as an asset to the extent that a cash flow refunds or a reduction in future payment is available. Contribution to a defined contribution plan is due for more than twelve months after the end of the period in which the employee render is discounted to the present value.

The legal and constructive obligation is limited to the amount it agrees to contribute to the fund.

3.07.2 Short term employee benefits

Short term employee benefits include bonus, leave encashment etc. Such obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognized for the amount expected to be paid under short cash bonus or profit sharing plans. If the company has a present, legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

3.07.3 Contribution to worker's profit participation fund & welfare funds (WPPF & WF)

The company has made provision during the period against WPPF & WF in accordance with the Bangladesh Labour Act, 2006 (Amendment 2013) & Rule 214 of the Bangladesh Labour Rule, 2015.

3.08 Provisions

A provision is recognized in the statement of financial position when the group has a legal or constructive obligation as result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provision is ordinarily measured at the best estimate of the expenditure required to settle the present obligation at the date of statement of financial position. Where the group expects some or all of a provision to be reimbursed the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the income statement net of any reimbursement. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

3.09 Contingencies

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control that arises from past events but is not recognized because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

Contingent liabilities and assets are not recognized in the statement of financial position of the company.

3.10 Revenue

Revenue has been recognized as per IFRS 15: Revenue from Contracts with Customers under 05 (Five) steps approach of recognizing revenue. According to the core principal of IFRS 15, the entity has recognized revenue to depict the transfer of promise goods or service to customer in an amount that reflects the consideration (Payment) to which the entity expects to be entitled in exchanging for those goods or services. 05 (Five) steps approach applied are as follows:

- Currency risk; and
- Interest rate risk.

This note presents information about the company's exposure to each of the above risks, the company's objectives, policies and processes for measuring and managing risk, and the company's management of capital.

The company management has overall responsibility for the establishment and oversight of the company's risk management framework. The company's risk management policies are established to identify and analyze the risks faced by the company to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the company's activities.

3.13.1 Credit risk

Credit risk is the risk of a financial loss to the company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and rises principally from the company's receivables from subscribers; interconnect operators roaming partners and dealers.

Management has a credit policy in place and the exposure to credit risk is monitored on ongoing basis.

In monitoring credit risk, debtors are grouped according to whether they are an individual or legal entity, ageing profile, maturity and existence of previous financial difficulties. Accounts and other receivables are mainly related to the company's subscribers. The exposure of the company to credit risk on accounts receivables is mainly influenced by the individual payment characteristics of post-paid subscribers. Interconnection receivables are normally paid within three months from when they are invoiced and credit risk from this receivable is very minimal. The company employs financial clearing houses to minimize credit risk involving collection of roaming receivables. Credit risk does not arise in respect any other receivables.

At the reporting date, there were no significant concentrations of credit risk. The maximum exposure to credit risk is represented by the carrying amount of each financial asset in the statement of financial position.

3.13.2 Liquidity risk

Liquidity risk is the risk that the company will not be able to meet its financial obligations as they fall due. The company's approach to managing liquidity (cash and cash equivalents) is to ensure, as far as possible, that it will

always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the company's reputation. Typically, the company ensures that it has sufficient cash and cash equivalents to meet expected operational expenses, including financial obligations through preparation of the cash flow forecast, prepared based on time line of payment of the financial obligation and accordingly arrange for sufficient liquidity/fund to make the expected payment within due date.

3.13.3 Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the company's income or value of its holding of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters. However, the company does not hold any financial instrument for which market risk arises due to market price movement and thus affect company's income or the value of its holdings of financial instruments.

3.13.4 Price fluctuation risk

Paramount Textile PLC along with other companies in the industry faces price fluctuation risk because of volatility of yarn price in the market emanating from fluctuation of raw cotton price in the international market. In recent times the price of yarn has considerably fluctuated in local and global market and the continuance of this will put pressure on the cost of production as well as price of finished goods. The company procures maximum raw materials (Yarn, Dyes and Chemicals) from abroad and proved the finished goods (fabrics) to some export oriented local garments and buyers.

So, considering the volatility of raw material price as well finished goods price in the international market, CRISL foresees that the company is exposed to price fluctuation risk.

3.13.5 Currency risk

The company is exposed to currency risk on certain revenues and purchases, resulting receivables and payables, and interest expense and repayments relating to borrowing incurred in foreign currencies. Majority of the company's transactions are denominated in USD. The Company has not entered into any type of derivative instrument in order to hedge currency risk due to stable exchange rate in the country and inflow of USD.

3.13.6 Interest rate risk

Interest rate risk is the risk due to changes in interest rates on borrowing. The risk arises for fluctuation of floating interest rates. The company has not entered into any type of derivative instrument in order to hedge interest rate risk as at June 30, 2023 due to having a stable money market in the country.

3.14 Financial cost

Financial costs comprise interest expense on borrowings, unwinding of the discount on provisions and contingent consideration, losses on disposal of available-for-sale financial assets, dividends on preference shares classified as liabilities, fair value losses. On financial assets, dividends on preference shares classified as liabilities, fair value losses on financial assets at fair value through profit or loss, impairment losses recognized on financial assets (other than trade receivable). Borrowing costs that is not directly attributable to the acquisition, construction or production of a qualifying asset are recognized in profit or loss using the effective interest.

3.15 Statement of Cash flow

The statement of cash flows has been prepared in accordance with requirements of IAS 7 Statement of Cash Flows. The cash generating from operating activities has been reported using the direct method as prescribed by the securities & exchange rules 2020 and as the benchmark treatment of IAS 7 whereby major classes of gross cash receipts and gross cash payment from operating activities are disclosed.

3.16 Events after the reporting period

Events after the reporting period that provide additional information about the company's position at the date of statement of financial position or those that indicate the going concern assumption is not appropriate are reflected in the financial statements. Events after the reporting period that are not adjusting events are disclosed in the notes when it is found to be material.

3.17 Transaction with related parties

The company carried out a number of transactions with related parties in the course of business and on arm's length basis. Transactions with related parties have been recognized and disclosed in the relevant notes to the

accounts according to IAS 24 "Related Party Disclosures".

3.18 Risk and uncertainties for use of estimates in preparation of financial statements.

Preparation of financial statement in conformity with the International Accounting Standards requires management to make estimates and assumption that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statement and revenues and expenses during the period reported. Actual result could differ from those estimates. Estimates are used for accounting of certain items such as depreciation and amortization and taxes.

3.19 Responsibility for preparation and presentation of financial statements

The Board of Directors is responsible for the preparation and presentation of financial statements under section 183 of the Companies Act 1994 and as per the provision of the "Framework for the Preparation and Presentation of Financial Statements" issued by the International Accounting Standard Board (IASB) as adopted by the Financial Reporting Council (FRC), Bangladesh.

3.20 Comparative information

Comparative information has been disclosed in respect to the year 2021-2022 for all numerical information of the financial statements and also the narrative and descriptive information when it is relevant for understanding of the current period financial statements.

Last year figures have been rearranged where considered necessary to conform to current year's presentation.

3.21 Consistency of presentation

The presentation and classification of all items in the financial statements have been retained from one period to another period unless where it is apparent that another presentation or classification would be more appropriate having regard to the criteria for the selection and application of accounting policies or changes is required by another IFRS.

3.22 Lease

The Company has assessed the impact of the standard and concluded that its existing lease contract would fall under the 'low value items' and practical expedients without having any material impact on the financial statements.

3.23 Level of precision

The figures in the financial statements have been rounded-off to nearest Taka.

4.00 Components of financial statements

The financial statement includes the following components as per IAS 1 "Presentation of Financial Statements"

- Statement of financial position as at 30 June 2023;
- Statement of profit or loss and other comprehensive income for the year ended 30 June 2023;
- Statement of cash flows for the year ended 30 June 2023;

Paramount Textile PLC

Notes to the Financial Statements

As at and for the Year Ended 30 June 2023

1.00 Introduction

1.01 Industry outlook

The Readymade Garment (RMG) industry of Bangladesh has emerged as a competent garment producer in the world. For nearly last three decades, the export oriented readymade garment (RMG) industry has been one of the major successes of Bangladesh. In this period, not only a world class export-oriented apparel sector has been built in the country but this sector is showing all the potentials of burgeoning into a far more dynamic one to the great benefit of the economy. There are more than 5,000 garments industries in the country that employs about 4.2 million workers. But the industry is far from reaching a saturation point. Greater volumes are being imported to traditional importing countries like USA and Canada and, significantly, major new markets in Japan. EU countries Australia, New Zealand, South Africa and others are being explored. From the current trends, it appears that Bangladesh could go on to doubling its production capacity RMG easily and fairly soon with beneficial effects of the same in the form of the substantially increased foreign currency earnings, job creation and reduction of poverty.

The contributory factors of the RMG industry in Bangladesh are global trading agreements, cheap labor cost, government's supportive policy and dynamic private entrepreneurship. This industry has successfully transformed Bangladesh into an export-oriented economy. The RMG industry also becomes the major foreign-currency earning sector with highest rates of absorption of industrial employment. The country entered into the export market apparels in 1978 with only 9 units and earned only \$0.069 million. During the last three decades, this sector has been achieving a phenomenal growth and the export earnings have reached to around \$34.14 billion (\$17.24 billion for woven garments and \$16.90 billion for knit garments) during fiscal year 2016-17. The growth of woven garments has been 12.81% and the growth of knit garments has been 7.47% in FY 2016-17. At an average around 80% of the country's total exports and also provided job for about 4.2 million people, which accounted for more than 18% of country's GDP.

The RMG industry has a great potential to earn more foreign currency from Latin America, South Africa, Russia, South Korea, Malaysia and Japan. It can earn up to US\$400 million by exporting apparels to three Latin American. The country can secure a slice of \$4.0 billion apparels market of China, Brazil and Mexico. It can also grab about 14% of South Africans US\$1.20 billion clothing market if the local exporters make an aggressive foray.

The recent financial crises especially in Europe have reduced export to the European Countries. The economic slow-down of Europe has resulted in a fall of purchasing capacity, which has brought forth a downward tendency in importing apparels from Bangladesh. In order to offset the export reduction in EU and USA, Bangladesh exporters are going to dispatch trade missions to South Africa, Malaysia, Australia and Latin American countries. Following the recent agreement between governments of Bangladesh and India, India will be one of the major export destinations. Moreover, the minimum wages of the workers in Bangladesh is one of the lowest in Asia.

3.02 Property, plant and equipment

3.02.1 Recognition and measurement

According to IAS 16 “property plant and equipment” items of property, plant and equipment excluding freehold land, freehold building and leasehold building are measured at cost less accumulated depreciation and accumulated impairment losses, if any. Freehold land is measured at cost. Freehold buildings and leasehold buildings are measured at cost less accumulated depreciation. The cost of an item of property, plant and equipment comprises its purchase price, import duties and refundable taxes (after deducting trade discount and rebates) and any costs directly attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the intended manner.

Part of an item of property, plant and equipment having different useful lives, are accounted for as separate items (major components) of property, plant and equipment.

Cost also includes transfer from equity of any gain or loss on qualifying cash flow hedges of foreign currency purchase of property, plant and equipment. Purchased software that is integral to the functionality of the related equipment is capitalized as part of that equipment.

3.02.2 Subsequent costs

The cost of replacing or upgrading part of an item of property plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the company and its cost can be measured reliably. The costs of the day-to-day servicing of property, plant and equipment are recognized in the statement of comprehensive income as incurred.

3.02.3 Depreciation

No depreciation is charged on freehold land and capital work in progress (CWIP) as the land has unlimited useful life and CWIP is not yet available for use. Depreciation on other items of property, plant and equipment is recognized on reducing balance method basis over the estimated useful lives of each item of property, plant and equipment. The depreciation rate of plant and machinery has been changed this year, considering the current remaining useful lives. Depreciation method, useful lives and residual balance are reviewed each reporting date and adjusted if appropriate.

The annual depreciation rates applicable to the principal categories are:

Building & Other Construction	10%
ETP & WTP	10%
Plant & Machinery	10%
Loose Tools	10%
Reed Air (Jet)	20%
Electric Installation	15%
Fire Equipment	15%

Industrial Rack	10%
Air Conditioner	10%
Swimming Pool	10%
Motor Vehicles	15%
Furniture Fixtures & Fittings	10%
Factory & Office Equipment	10%
Telephone Equipment	12%
Decoration in Office	10%
Transformer	10%
Commercial Space	01%

3.02.4 Major maintenance activities

The company incurs maintenance costs for all of its major items of property, plant and equipment. Repair and maintenance costs are charged as expenses when incurred.

3.02.5 Gain or losses on disposal

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss on disposal or retirement of an item of property, plant and equipment is determined as the difference between sales proceeds and the carrying amount of the asset and is recognized with other income or general and administrative expense.

3.02.6 Borrowing costs

As per requirement of IAS 23: Borrowing Costs, directly attributable borrowing costs are capitalized during constructing period for all qualifying assets. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use or sale. The borrowing costs that are directly attributable to the acquisition construction or production of a qualifying asset are those borrowing cost that would have been avoided if the expenditure or the qualifying asset had not been made. All other borrowing costs are recognized in statement of profit or loss and other comprehensive income in the period in which they are incurred.

3.02.7 Capital work in progress

Capital work in progress consists of acquisition cost of capital components and related installation until the date placed in service. In case of import of components capital work in progress is recognized when risk and rewards are associated with such assets are transferred.

3.03 Inventories

Inventories are valued at lower of cost and net realizable value. Costs of inventories include expenditure incurred in acquiring the inventories production or conversion costs and other costs incurred in bringing them to their existing location and condition. Cost of inventories is determined by using the weighted average cost formula. Where necessary allowance is provided for damaged obsolete and slow moving items to adjust the carrying value of inventories to the lower of cost and net realizable value. Net realizable value is based on estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

3.04 Financial instruments

3.04.1 Non-derivatives financial assets

The company initially recognizes receivables and deposits on the date that they are originated. All other financial assets are recognized initially on the date at which the company becomes a party to the contractual provisions of the transaction.

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the company has legal right to offset the amounts intends either to settle on a net basis or to realize the assets and the liability simultaneously.

Financial assets include cash and cash equivalents short term investments, accounts receivable, other receivables and deposits.

3.04.1.1 Accounts receivable

Accounts receivable represents the amounts due from institutional customer export customers etc. Accounts receivable stated at original invoice amount without making any provision for doubtful debts because of the fact that exports are being based on 100% confirmed letter of credit basis with fixed maturity dates.

3.04.1.2 Advance, deposits & prepayments

Advances are initially measured at cost. After initial recognition advances are carried at cost less deductions, adjustment or any other changes.

Deposits are measured at payment value.

Prepayments are initially measured at cost. After initial recognition prepayments are carried at cost less charges to statements of comprehensive income.

3.04.1.3 Cash and cash equivalents

Cash and cash equivalents comprise cash in hand, cash in transit and cash at bank including fixed deposit having maturity of three months or less which are available for use by the company without any restrictions. Temporary negative balance in any bank account that are adjustable and/or repayable on demand form an integral part of the company's cash management are include as a component of cash and cash equivalent. There is insignificant risk of change in value of the sale.

3.04.1.4 Available-for-sale financial assets

Available-for-sale financial assets are recognized initially at value plus any directly attributable transaction costs. Subsequent to initial recognition they are measured at fair value and changes therein other than impairment losses and foreign currency differences or available-for-sale debt instruments are recognized in other comprehensive income and presented in the fair value reserved in equity. When an investment is derecognized the gain or loss accumulated in equity is reclassified to statement of comprehensive income. Available-for-sale financial assets comprise investment in stock market.

3.04.2 Non-derivative financial liabilities

The company recognizes all financial liabilities on the transaction date which is the date the company becomes a party to the contractual provision of instrument. The company derecognizes a financial liability when its contractual obligations are discharged cancelled or expired. Financial liabilities include trade and other payables liability for expense.

3.04.2.1 Trade and other payables

Trade and other payables are recognized when its contractual obligations from past events are certain and settlement of which is expected to result in an outflow from the company of resources embodying economic benefits.

The company recognizes a financial liability at fair value less any directly attributable transaction costs. Subsequent to initial recognition these financial liabilities are measured at amortized cost using the effective interest method.

3.05 Impairment

3.05.1 Non- derivative financial assets

A financial asset not classified at fair value through profit or loss is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after initial recognition of the asset and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

Loans and receivables and held-to-maturity investment securities

The company considers evidence of impairment for loans and receivables and held -to-maturity investment securities at both a specific asset and collective levels. All individually significant receivables and held-to-maturity investment securities are assessed for specific impairment. Those found not to be specifically impaired are then collectively assessed for any impairment that has been incurred but not yet identified. Assets that are not individually significant are collectively assessed for impairment by grouping together assets with similar risk characteristics.

Available-for-sale financial assets

Impairment losses on available-for-sale financial assets are recognized by reclassifying the losses accumulated in the fair value reserve in equity, to profit or loss. The cumulative loss that is reclassified from equity to profit or loss is the difference between the acquisition cost, net of any principal repayment and amortization, and the current fair value, less any impairment loss recognized previously in profit or loss. Changes in impairment provisions attributable to application of the effective interest method are reflected as a component of interest income. If, in a subsequent period, the fair value of an impaired available-for-sale debt security increases and the increase can

be related objectively to an event occurring after the impairment loss was recognized in profit or loss, than the impairment loss is reversed, with the amount of the reversal recognized in profit or loss. However, any subsequent recovery in the fair value of an impaired available-for-sale equity security is recognized in comprehensive income.

3.05.2 Non-derivative non-financial assets

In compliance with IAS 36 "Impairment of Assets" the carrying amounts of the company's non-financial assets, other than biological assets, investment property, inventories and deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the assets recoverable amount is estimated. For goodwill, and intangible assets that have indefinite useful lives or that are not yet available for use, the recoverable amount is estimated each year at the same time. An impairment loss is recognized if the carrying amount of an asset or its related cash generated unit (CGU) exceeds its estimated recoverable amount.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less cost to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre tax discount rate that reflects current market assessments of the time value of money and the risks specific to the assets or CGU.

For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGU.

Impairment losses are recognized in profit or loss. Impairment losses recognized in respect of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to the CGU (group of CGUs), and then to reduce the carrying amounts of the other assets in the CGU (group of CGUs) on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the assets carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

3.06 Taxation

The company is a public limited company, as per the income tax act, 2023 the rate of income tax is 15% on business income, 20% on dividend income and 20% on other income since the company is 100% export-oriented Textile industry.

Current tax has been charged at the rate applicable to the company as per Income Tax Act 2023 and Finance Act, subject to provision of section 163 of the ordinance taking higher income of- (a) at the rate of 0.60% of total gross receipts, (b) tax deducted at source for corporate sales u/s 89, tax collected at import stage U/S 120; and tax deducted at source of bank interest income u/s 102, (c) at the applicable tax rate on taxable income.

According to IAS 12 "Income Taxes" deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary difference when they reverse, using tax rates enacted or substantively enacted by the reporting date.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

A deferred tax asset is recognized for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

3.07 Employee benefits

The company maintains a defined contribution plan and short term employee benefits and post-employment benefits for its eligible permanent employees. The eligibility is determined according to the terms and conditions set forth in the respective deeds as well as rules enforceable as per IAS 19 "Employee Benefits".

3.07.1 Defined contribution plan

A defined contribution plan is a post employment benefit under which an entity pays fixed contribution into a

separate entity and has no legal or constructive obligations to pay fixed contribution into a separate entity and has no legal or constructive obligations to pay further amounts. Obligations for contributions to defined contribution plan are recognized as an employee benefit expense in statement of comprehensive income in period during which related services are rendered by employees. Prepaid contributes are recognized as an asset to the extent that a cash flow refunds or a reduction in future payment is available. Contribution to a defined contribution plan is due for more than twelve months after the end of the period in which the employee render is discounted to the present value.

The company contributions to be a recognized provident fund for its permanent employees eligible to be member of the fund in accordance with the rules of the provident fund constituted under an irrevocable trust. All permanent employees contribute 10% of their basic salary to the provident fund and the company also made equal contribution. The Company recognizes contribution to a defined contribution plan as an expense when an employee has rendered services in exchange for such contribution. The legal and constructive obligation is limited to the amount it agrees to contribute to the fund.

3.07.2 Short term employee benefits

Short term employee benefits include bonus, leave encashment etc. Such obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognized for the amount expected to be paid under short cash bonus or profit sharing plans. If the company has a present, legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

3.07.3 Contribution to worker's profit participation fund & welfare funds (WPPF & WF)

The company has made provision during the period against WPPF & WF in accordance with the Bangladesh Labour Act, 2006 (Amendment 2013) & Rule 214 of the Bangladesh Labour Rule, 2015.

3.08 Provisions

A provision is recognized in the statement of financial position when the group has a legal or constructive obligation as result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provision is ordinarily measured at the best estimate of the expenditure required to settle the present obligation at the date of statement of financial position. Where the group expects some or all of a provision to be reimbursed the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the income statement net of any reimbursement. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

3.09 Contingencies

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control that arises from past events but is not recognized because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

Contingent liabilities and assets are not recognized in the statement of financial position of the company.

3.10 Revenue

Revenue has been recognized as per IFRS 15: Revenue from Contracts with Customers under 05 (Five) steps approach of recognizing revenue. According to the core principal of IFRS 15, the entity has recognized revenue to depict the transfer of promise goods or service to customer in an amount that reflects the consideration (Payment) to which the entity expects to be entitled in exchanging for those goods or services. 05 (Five) steps approach applied are as follows:

- iv. Allocate the price to the performance obligation; and
- v. Recognize revenue

3.11 Earnings per share

In complying with IAS 33 “Earnings per Share”, the Company presents basic and diluted earnings per share data for its ordinary shares. Basic earnings per share is calculated by dividing the profit or loss attributable to ordinary shareholders of the company by the weighted average number of ordinary shares outstanding during the period, adjusted for own shares held. Diluted earnings per share are determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares.

3.12 Foreign currencies

The major activities of the company were carried out in USD, EURO and GBP but record and reported in Bangladesh Taka as this is the reporting currency.

The import activities were not subject to any exchange fluctuation. Only the unencumbered portion of export bills was subject to exchange fluctuation which was dealt through statement of comprehensive income of the entity. Foreign currency transactions are recorded at the applicable rates of exchange ruling at the transaction date.

Among the monetary assets and liabilities denominated in foreign currencies the reporting date, only the export retention quota account was translated the applicable rates of exchange ruling at that date. Exchange difference on such translation was also dealt through the statement of comprehensive income.

3.13 Financial risk management

The company has exposure to the following risks from its use of financial instruments:

- Credit risks;
- Liquidity risks;
- Market risk;
- Price fluctuation risk;
- Currency risk; and
- Interest rate risk.

This note presents information about the company's exposure to each of the above risks, the company's objectives, policies and processes for measuring and managing risk, and the company's management of capital.

The company management has overall responsibility for the establishment and oversight of the company's risk management framework. The company's risk management policies are established to identify and analyze the risks faced by the company to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the company's activities.

3.13.1 Credit risk

Credit risk is the risk of a financial loss to the company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and rises principally from the company's receivables from subscribers; interconnect operators roaming partners and dealers.

Management has a credit policy in place and the exposure to credit risk is monitored on ongoing basis.

In monitoring credit risk, debtors are grouped according to whether they are an individual or legal entity, ageing profile, maturity and existence of previous financial difficulties. Accounts and other receivables are mainly related to the company's subscribers. The exposure of the company to credit risk on accounts receivables is mainly influenced by the individual payment characteristics of post-paid subscribers. Interconnection receivables are normally paid within three months from when they are invoiced and credit risk from this receivable is very minimal. The company employs financial clearing houses to minimize credit risk involving collection of roaming receivables. Credit risk does not arise in respect any other receivables.

At the reporting date, there were no significant concentrations of credit risk. The maximum exposure to credit risk is represented by the carrying amount of each financial asset in the statement of financial position.

3.13.2 Liquidity risk

Liquidity risk is the risk that the company will not be able to meet its financial obligations as they fall due. The company's approach to managing liquidity (cash and cash equivalents) is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the company's reputation. Typically, the company ensures that it has sufficient cash and cash equivalents to meet expected operational expenses, including financial obligations through preparation of the cash flow forecast, prepared based on time line of payment of the financial obligation and accordingly arrange for sufficient liquidity/fund to make the expected payment within due date.

3.13.3 Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the company's income or value of its holding of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters. However, the company does not hold any financial instrument for which market risk arises due to market price movement and thus affect company's income or the value of its holdings of financial instruments.

3.13.4 Price fluctuation risk

Paramount Textile PLC along with other companies in the industry faces price fluctuation risk because of volatility of yarn price in the market emanating from fluctuation of raw cotton price in the international market. In recent times the price of yarn has considerably fluctuated in local and global market and the continuance of this will put pressure on the cost of production as well as price of finished goods. The company procures maximum raw materials (Yarn, Dyes and Chemicals) from abroad and proved the finished goods (fabrics) to some export oriented local garments and buyers.

So, considering the volatility of raw material price as well finished goods price in the international market, CRISL foresees that the company is exposed to price fluctuation risk.

3.13.5 Currency risk

The company is exposed to currency risk on certain revenues and purchases, resulting receivables and payables, and interest expense and repayments relating to borrowing incurred in foreign currencies. Majority of the company's transactions are denominated in USD. The Company has not entered into any type of derivative instrument in order to hedge currency risk due to stable exchange rate in the country and inflow of USD.

3.13.6 Interest rate risk

Interest rate risk is the risk due to changes in interest rates on borrowing. The risk arises for fluctuation of floating interest rates. The company has not entered into any type of derivative instrument in order to hedge interest rate risk as at June 30, 2023 due to having a stable money market in the country.

3.14 Financial cost

Financial costs comprise interest expense on borrowings, unwinding of the discount on provisions and contingent consideration, losses on disposal of available-for-sale financial assets, dividends on preference shares classified as liabilities, fair value losses. On financial assets, dividends on preference shares classified as liabilities, fair value losses on financial assets at fair value through profit or loss, impairment losses recognized on financial assets (other than trade receivable). Borrowing costs that is not directly attributable to the acquisition, construction or production of a qualifying asset are recognized in profit or loss using the effective interest.

3.15 Statement of Cash flow

The statement of cash flows has been prepared in accordance with requirements of IAS 7 Statement of Cash Flows. The cash generating from operating activities has been reported using the direct method as prescribed by the securities & exchange rules 1987 and as the benchmark treatment of IAS 7 whereby major classes of gross cash receipts and gross cash payment from operating activities are disclosed.

3.16 Events after the reporting period

Events after the reporting period that provide additional information about the company's position at the date of statement of financial position or those that indicate the going concern assumption is not appropriate are reflected

in the financial statements. Events after the reporting period that are not adjusting events are disclosed in the notes when it is found to be material.

3.17 Transaction with related parties

The company carried out a number of transactions with related parties in the course of business and on arm's length basis. Transactions with related parties have been recognized and disclosed in the relevant notes to the accounts according to IAS 24 "Related Party Disclosures".

3.18 Risk and uncertainties for use of estimates in preparation of financial statements.

Preparation of financial statement in conformity with the International Accounting Standards requires management to make estimates and assumption that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statement and revenues and expenses during the period reported. Actual result could differ from those estimates. Estimates are used for accounting of certain items such as depreciation and amortization and taxes.

3.19 Responsibility for preparation and presentation of financial statements

The Board of Directors is responsible for the preparation and presentation of financial statements under section 183 of the Companies Act 1994 and as per the provision of the "Framework for the Preparation and Presentation of Financial Statements" issued by the International Accounting Standard Board (IASB) as adopted by the Financial Reporting Council (FRC), Bangladesh.

3.20 Comparative information

Comparative information has been disclosed in respect to the year 2021-2022 for all numerical information of the financial statements and also the narrative and descriptive information when it is relevant for understanding of the current period financial statements.

Last year figures have been rearranged where considered necessary to conform to current year's presentation.

3.21 Consistency of presentation

The presentation and classification of all items in the financial statements have been retained from one period to another period unless where it is apparent that another presentation or classification would be more appropriate having regard to the criteria for the selection and application of accounting policies or changes is required by another IFRS.

3.22 Lease

The Company has assessed the impact of the standard and concluded that its existing lease contract would fall under the 'low value items' and practical expedients without having any material impact on the financial statements.

3.23 Level of precision

The figures in the financial statements have been rounded-off to nearest Taka.

4.00 Components of financial statements

The financial statement includes the following components as per IAS 1 "Presentation of Financial Statements"

- Statement of financial position as at 30 June 2023;
- Statement of profit or loss and other comprehensive income for the year ended 30 June 2023;
